

Policy on Dismissing The Property Manager

If the person responsible for overseeing the Property Manager (normally the President) believes the Property Manager should be dismissed, he/she should present the facts, situation and recommendation to the Board of Directors either at a Special Meeting or at the next scheduled Board Meeting for a Board majority decision. The person, despite his/her having responsibility for overseeing the Property Manager, does not have the sole power to rule/determine dismissal.

Board Adopted, December 2012
